SPACE IS LIMITED!

Call and reserve your spot by May 22nd, 2013
Lake County Farm Bureau (707) 263-0911

California employers are required to take these four steps to prevent heat illness

1. Training

Train all employees and supervisors about heat illness prevention.

2. Water

Provide enough fresh water so that each employee can drink at least 1 quart per hour, *and encourage them to do so.*

3. Shade

Provide access to shade and encourage employees to take a cool-down rest in the shade for at least 5 minutes. *They should not wait until they feel sick to cool down.*

4. Planning

Develop and implement written procedures for complying with the Cal/OSHA Heat Illness Prevention Standard.

FELS

WATER. REST. SHADE.

The work can't get done without them.

Hosted by Lake County Farm Bureau
